Sterile Processing Department

DISCOVER INNOVATION DRIVING INCREASED EFFICIENCY

ULTRASONIC CLEANING SYSTEMS AND SONIC IRRIGATORS

One Integrated Approach to Healthcare.

STERIS

Advancements in surgical instruments have dramatically improved patient outcomes. However, these intricate designs have made manual cleaning labor intensive, creating potential bottlenecks.

Understanding these challenges and how they impact the process allows STERIS to deliver a holistic approach to cleaning. The comprehensive line of ultrasonic irrigators helps increase efficiency in today's busiest Sterile Processing Departments.

PRODUCTIVITY

Expanded Capacity
Increasing Throughput

Process 20 lumened devices, or up to 44 lbs. of instruments per cycle

Streamline sonic processing of select robotic instruments[1] in the InnoWave Pro or PCF

Process 60 lumened devices, or up to 66 lbs. of instruments per cycle

InnoWave™ Pro Sonic Irrigator

InnoWave™ PCF Sonic Irrigator

Process 16 lumened devices, or up to 35 lbs. of instruments per cycle[2]

InnoWave™ Unity Sonic Irrigator

COMPLIANCE

Focused on Compliance and Safety

Experience safer instrument handling provided by the market leader in Thermal Disinfection for Sonic Irrigators[3]

- **Meets A_0 3000** as defined within international standards for the time temperature relationships to ensure effective disinfection
- **ANSI/AAMI ST 15883-2:2013 4.3 compliant**
- Record keeping is made easy with integrated data reporting options
- Automatic locking lid provides increased safety assurance
- Consistent performance from automated chemistry dosing

[1]Devices include daVinci® X/Xi, S/Si Endowrists and Staplers. da Vinci®, EndoWrist® are registered trademarks of Intuitive Surgical.

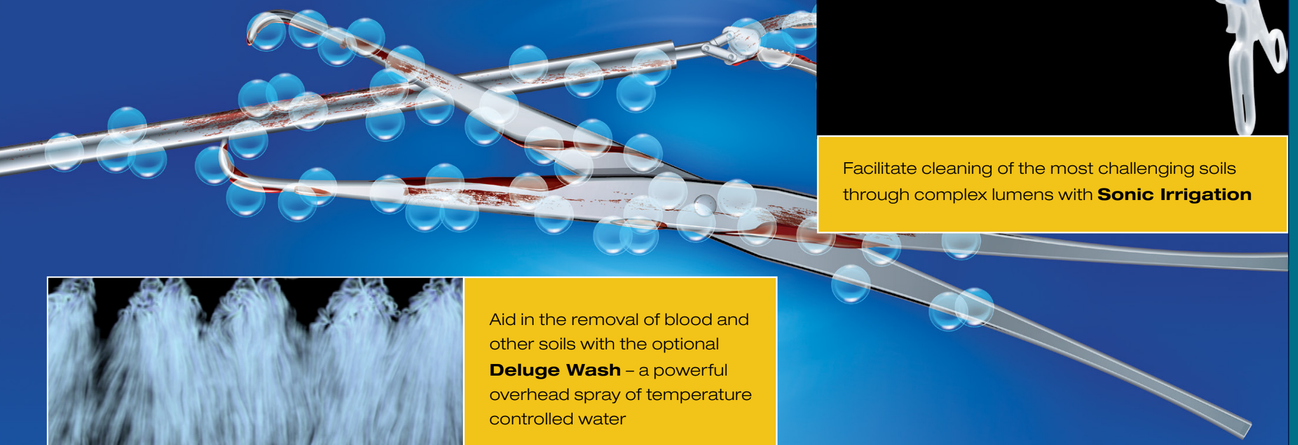
[2]InnoWave Unity 15 processes up to 25 lbs. per cycle and InnoWave Unity 20 processes up to 35 lbs. per cycle.

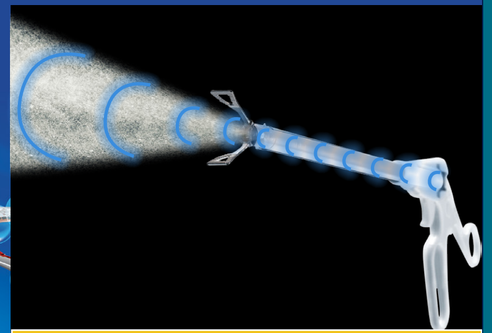
[3]Available on InnoWave™ PCF Sonic Irrigator and InnoWave™ Pro Sonic Irrigator.

PERFORMANCE

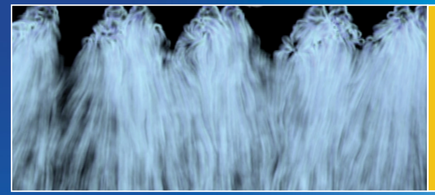
Reaching the Unseen

Drive Efficiency with Consistent Cleaning
Using a combination of powerful ultrasonic action and controlled irrigation, these units **effectively dislodge and flush debris** from serrations, small crevices, and lumens





Facilitate cleaning of the most challenging soils through complex lumens with **Sonic Irrigation**



Aid in the removal of blood and other soils with the optional **Deluge Wash** – a powerful overhead spray of temperature controlled water

Experience greater cleaning capacity and maximum flexibility with Immersible Ultrasonic Transducer packs providing side sweep technology to ensure 100% chamber coverage in the InnoWave™ Pro Sonic Irrigator

Experience the high pressure irrigation force provided by the **Power Flush***

Maintain appropriate temperature levels to help ensure cavitation action and enzymatic performance

Protecting instruments helps promote a longer lifespan, which reduces overall costs. **Prolystica® HP Chemistries**** helps reduce the amount of chemistry used. Paired with Hinge-Free Instrument Lubricant – you are ensured a higher level of instrument protection.

*Available on select models

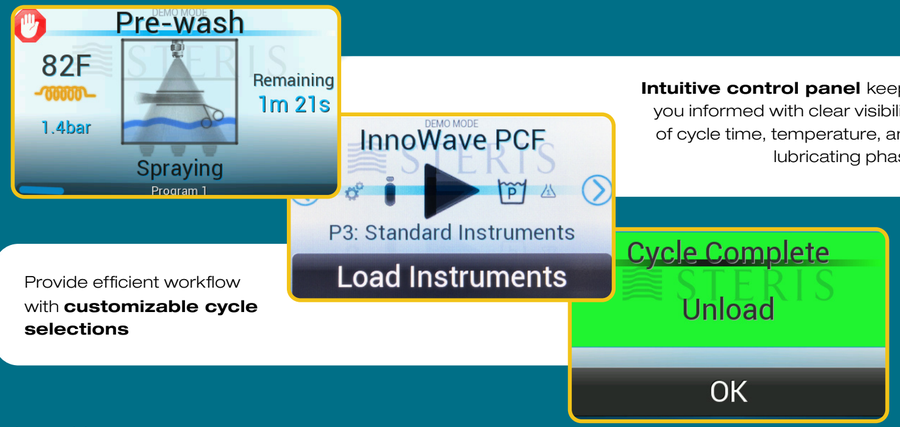
**For use in select models

SPECIFICATIONS

Streamlining Your Process

Help **increase staff safety** with easy loading and unloading of heavy instrument sets using the tray elevator*

Take the guesswork out of dosing with **automated and precise delivery of chemistry**



Intuitive control panel keeps you informed with clear visibility of cycle time, temperature, and lubricating phase

Provide efficient workflow with **customizable cycle selections**

*Available on select models

Floor Units	# of Lumen Connections	Data Recording	Weight per Load	Thermal Disinfection
InnoWave™ Pro Sonic Irrigator	60	Yes	66 lbs.	Yes
InnoWave™ PCF Sonic Irrigator	20	Yes	44 lbs.	Yes
InnoWave™ Unity 15 and 20 Sonic Irrigators	16	Yes	Unity 15 - 25 lbs. Unity 20 - 35 lbs.	No

MAXIMIZE EQUIPMENT UPTIME

A team of service experts delivers the highest level of responsiveness and technical expertise in the industry, helping to **keep you running 24/7**

4 hour phone response

48 hour onsite response
regardless of the primary service provider

More than 1,000 service technicians in North America, with three technicians assigned to every account
