DRIVING INNOVATION.
DELIVERING THROUGHPUT.

From the people who set the standard for Low Temperature Sterilization.

SPEED ⊕ Capacity
= MAXIMUM THROUGHPUT

MAXIMUM THROUGHPUT

MAX SPEED AND CAPACITY

THE V-PRO DIFFERENCE

Features only available from V-PRO Sterilizers

Unlock the greatest throughput and productivity for your OR, ASC or SPD with V-PRO® Sterilizers. STERIS innovations factor speed, capacity and chamber usage to deliver true maximum throughput, keeping you on schedule, all the time.

	Exclusive Cycle	Non Lumen Cycle	Flexible Cycle	Lumen Cycle
V-PRO®maX 2 Low Temperature Sterilization System. The fastest and most productive Low Temperature Sterilizer in the V-PRO portfolio	Fast Non Lumen Cycle  16 minutes, 11 lbs. V-PRO	 28 minutes, 50 lbs. V-PRO	 35 minutes, 24 lbs.	 52 minutes, 19.65 lbs.
	60 trays per shift	**68 trays per shift**	**54 trays per shift**	**36 trays per shift**
V-PRO®maX Low Temperature Sterilization System. A lower total cost of ownership with outstanding productivity	N/A	 28 minutes, 50 lbs. V-PRO	 35 minutes, 24 lbs.	 55 minutes, 19.65 lbs.
		68 trays per shift	**54 trays per shift**	**34 trays per shift**
V-PRO® s2 Low Temperature Sterilization System. For when space is at a premium, but need maximum productivity	Fast Cycle 19 minutes, 4 lbs of Non Lumen and Stainless Steel Lumen Instruments	 28 minutes, 25 lbs.	 38 minutes, 11 lbs.	 60 minutes, 11 lbs.
	50 trays per shift	**34 trays per shift**	**24 trays per shift**	**16 trays per shift**

*** Trays per shift is factored by :**

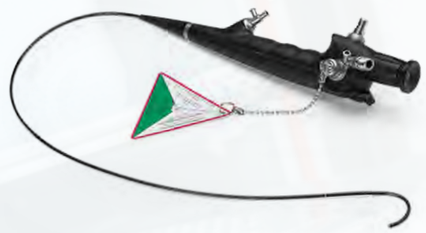
- **8 hour shift**
- **19 x 7.5 x 2 PRO-LITE™ sterilization tray (VP049)**
- **Approximate time for specific cycle**

MAXIMUM THROUGHPUT

MAX INNOVATION

INNOVATIONS → PRODUCTIVITY → THROUGHPUT

- **Maximize devices per load** with the **most productive cycle claims** and the ability to have **mixed loads**



- **Process more stainless-steel lumens** than competing vaporized hydrogen peroxide sterilizers in the Lumen Cycle
  - Up to 20 in V-PRO maX and maX 2 Sterilizers, up to 12 in V-PRO s2 Sterilizers***

- Gain **flexibility in load contents** with the ability to process dual channel flexible scopes and dual and triple channel rigid scopes.

- **Increase your speed** to process devices, and use less sterilant, with the new Fast and Fast Non Lumen Cycles - both exclusive to V-PRO Sterilizers

MAX COMPATIBILITY

Setting the standard to ensure V-PRO Sterilizers work with the **widest range possible of medical devices and materials,** through a gentle, non-plasma process.

Endoscope	Endoscope Accessories	Powered Instruments	General Surgical Instruments	Packaging	Other Devices	Unique Materials
Arthroscopes	Cameras	Batteries	Curettes	Pouches	Bougies	Ceramics
Bronchoscopes	Cannulas	Drills	Forceps	Rigid Containers	Defibrillation Paddles	Copper
Choledochoscopes	Fiber Optic Light Cables	Handpieces	Retractors	Trays	Flow Probes	Diamond
Cystoscopes	Obturators	Saws	Scissors	Wraps	Gonio/ Vitrectomy Lens	Platinum
da Vinci® Xi and Si Endoscopes	Sheaths/ Adapters/ Bridges				Laryngoscope Blades & Handles	Santoprene
Hysteroscopes					Opthalmic	Silver
Intubation Endoscopes					Transducers	Tungsten Carbide
Laparoscopes					Ultrasound Probes	
Rhinolaryngoscopes						
Ureteroscopes

STERIS Device Testing

INCREASED PRODUCTIVITY.
REDUCED EXPENSE.

Up to **50%** less consumable cost*

Up to **25%** less service cost*

20% faster BI read**

* Savings based on U.S. Government average contract pricing for V-PRO Sterilizers and STERRAD Sterilizers in 2018
** When used in conjunction with Celerity® 20 HP Biological Indicator
*** Compared to STERRAD 100NX Sterilizer's cycle claims per 510(k) #K160903

MAX SIMPLICITY

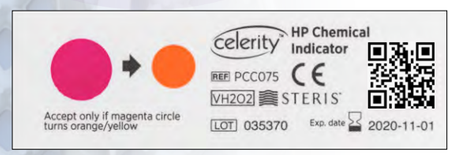
Standardize your process

with the same sterilant used
in all V-PRO Sterilizers —
VAPROX® HC Sterilant

Now available for V-PRO maX 2 and s2 Sterilizers, the new Smart Cup is designed to help save time and expense from wasted sterilant.

Stay on schedule with fast BI release

— just 20 minutes with
Celerity™ 20 HP Biological Indicator



Receive fast and reliable indication

of sterilant penetration with the
Celerity™ HP Chemical Indicator

Immediate CI results with VERIFY® VH202 Indicator Tape

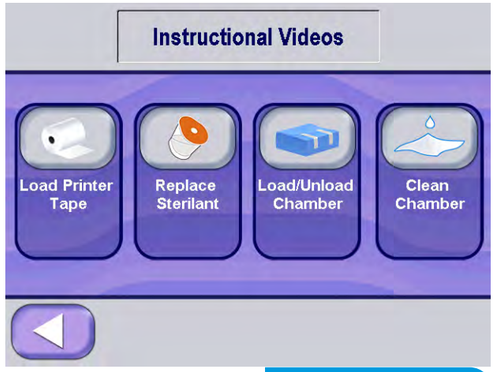
Optimize loading capacity

in V-PRO Sterilizers with
PRO-LITE™ Sterilization Tray

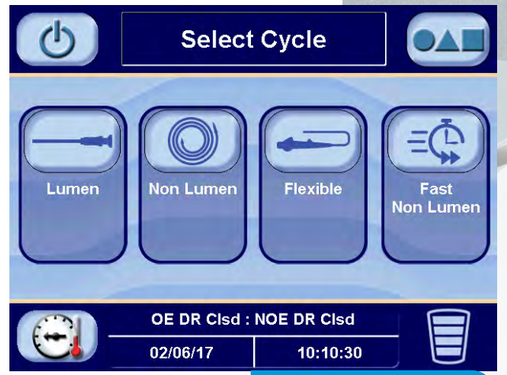
MAX EASE

Easy to Learn and Operate

Intuitive on-screen displays with bold simple icon selections and on-screen instructional videos*



V-PRO s2 Instructional Videos



V-PRO maX 2 Sterilizer screen

Minimize Aborted Cycles

Delayed Start and Moisture Check features save time and money.

V-PRO maX 2 Sterilizer screen

Continual Innovation

STERIS has continually added new claims to V-PRO Sterilizers, **at no cost,** to keep you **at your most productive.** To learn more about the value we've added to V-PRO Sterilizers and keep up-to-date on new claims, visit **STERIS.com/vproclaims**

*V-PRO s2 Sterilizer only

MAXIMUM THROUGHPUT

MAX UPTIME

- Four-hour phone response and 48-hour onsite response regardless of the primary service provider
- Over 1,000 service technicians in North America, with three technicians assigned to every account
- Flexible service options with no minimum purchase order for service

A holistic, integrated team of service experts delivering **the highest level of responsiveness and technical expertise** in the industry.

ConnectAssure TECHNOLOGY

COMPLIANCE MADE SIMPLE

Driven by real-time data delivered from your V-PRO maX 2 Sterilizer and Celerity HP Incubator to your facility's tracking system, ConnectAssure Technology allows your staff to focus on what matters most — supporting the OR.

- Complete sterilization records in one place
- Reminders for regular maintenance tasks
- Essential reporting for compliance
- Demonstrate compliance over a defined period
- Eliminate lost or incomplete sterilization records

No tracking system? No problem.

ConnectAssure Technology has a robust interface that allows all the benefits of the software without a facility tracking system.
